Assignment Title: Consulting Services for the development of Design Parameters, Drawings Bill of Quantities and Tender Document for renovation, construction and supervision of 13 Health Facilities.

The Government of Jamaica (GOJ) has received financing from the Inter-American Development Bank (IDB) towards the cost of the Support for the Health Systems Strengthening for the Prevention and Care Management of Non-Communicable Diseases Programme, and intends to apply part of the proceeds for consulting services. The Programme development objective is to improve the health of Jamaica's population by strengthening comprehensive policies for the prevention of Non-Communicable (Chronic) Diseases (NCDs) risk factors and improved access to an upgraded and integrated primary and secondary health network in prioritized areas.

The consulting services ("the Services") include (1) assessing the current state of the facilities and making recommendations for design plans and design parameters to improve the quality of healthcare delivery; (2) developing Bill of Quantities and Tender Documents for construction supervision services; (3) developing Terms of Reference (TOR) for a Consultant to assess and report on the environmental impact of the new/renovated health facilities; (4) providing advisory services to the Ministry. The consultancy will have duration of 7 months.

The Ministry of Health now invites eligible consulting firms ("Consultants") to indicate their interest in providing the Services. Interested Consultants should provide information demonstrating that they have the required qualifications and relevant experience to perform the Services. The shortlisting criteria are:

In the case of a joint venture, all the partners in the joint venture shall be jointly and severally liable for the entire contract, if selected.
