

MINISTRY PAPER No. 128

**Enhanced Revenue Measures for the balance of
FY2009/2010 and Medium Term**

Members of this Honourable House are invited to take note of the following additional revenue measures being proposed for implementation, effective January 1, 2010:

1. Increase in the Standard Rate of General Consumption Tax

It is being proposed that the standard rate of General Consumption Tax (GCT) be increased from the current 16.5% to 17.5%.

The revenue yield from this measure is estimated at \$3.6 billion annually.

2. Expansion of the GCT Base

In an effort to broaden the tax base and reduce the level of distortions in the system, it is proposed that the list of exempt items be further reduced. Appendix 1 represents the items that continue to be exempt. Appendix 2 represents items that have been removed from the exempt list and are now taxable.

The revenue yield from this measure is estimated at \$6.2 billion annually.

3. Imposition of GCT on the supply of Electricity to residential premises

It is being proposed that GCT at the standard rate be applied as follows:

The supply of electricity provided to residential premises for private or domestic use above a threshold of 200 kilo watt hours of electricity per month. The supply of electricity of 200 kilo watt hours and below will be zero rated.

The revenue yield from this measure is estimated at \$1.2 billion annually.

4. Adjustment to the SCT on Fuel

Currently under the GCT Act fuel attracts both a specific and an advalorem rate of Special Consumption Tax. It is now proposed that an advalorem rate of 15% be applied as follows:

- (a) Where the fuel is manufactured in Jamaica, the 15% will be applied to the ex refinery price inclusive of the Specific component of the SCT.

- (b) Where the fuel is imported into Jamaica the Advalorem rate will be applied to the value as prescribed in the GCT Act.

The items to be affected include:

- Motor Spirits including E10/87, E10/90
- Automotive Diesel Oil
- Kerosene (Excluding Turbo Jet A1 Fuel)
- Marine Diesel Oil and

The estimated yield for the measure is \$9.4 billion annually.

5. Increase in the Special Consumption Tax (SCT) on Cigarettes.

It is being proposed that cigarettes of tariff #2402.20 and 2402.9010 be increased from the current \$8,500 per 1,000 sticks to \$10,500 per 1,000 sticks.

The expected revenue yield from this measure will be \$1.41 billion with 20% of this amount to be remitted to the National Health Fund.

Audley Shaw, M.P
Minister of Finance and the Public Service
December 17, 2009
