The Ministry of Finance and Planning, Procurement and Asset Policy Unit (PAPU) Frequently Asked Questions is an editorial feature that will seek to address Procurement issues and provide a response and clarity to those issues raised.

Q: WHAT IS THE PUBLIC PROCUREMENT ACT?

The Public Procurement Act is the regulatory framework that governs government procurement. It provides for clear and comprehensive understanding of the procurement function.

Q: HOW WILL THE PRACTITIONER BE IMPACTED?

- A:**
- Recognition of the procurement functions as a profession and not as a back office operation. Wider range of methods and timelines for implementing contracts will reduce transaction costs and allocation of resources.
 - Better management of the procurement function by each entity
 - Re-engineering of the procurement functions in organizations supported by well-trained practitioners duly certified.

If you are interested in doing business with the government, you are invited to view tender notices for procurement contracts on this page.
